Forecast for Tuesday 21 Sep 2021

Weather: A bright day with some sunny intervals, perhaps clouding over in the west towards mid afternoon. There may be some light rain for ranges west of the A9 but remaining dry for eastern ranges. Becoming very windy with gales or even severe gales on the munro tops.

Chance of cloud free mountain/hill tops above 800m: 95% nearly all tops will be clear in the morning, perhaps some low cloud forming in the afternoon for western ranges.

Visibility: Patches of low cloud will form above 700m this afternoon in the west reducing visibility but generally very good visibility especially for eastern ranges where there will be a far reaching views. Light rain and drizzle may cause some temporary reductions in visibility around western areas like Ben Alder and Loch Ossian during the afternoon and evening.

Met Office Aberdeen Meteorologist's View

Widespread gales from lunchtime for all ranges, some severe gale gusts on munro tops and around the Cairngorm Plateau. Feeling chilly in strong winds.

Forecast for Wednesday 22 Sep 2021

Weather: A bright start to the day but clouding over from the west during the morning. A band of rain moving south over Scotland will give a period of wet weather on the hills during the afternoon and evening. A clear and dry evening later.

Maximum wind: Southwesterly 30-35mph with gusts 55mph in the morning, easing by lunchtime to 20-25mph with gusts 40mph.

Chance of cloud free mountain/hill tops above 800m: 80% initially with some low cloud in the west but lowering to 40% during the afternoon as rain introduces a lot of low cloud to most ranges except in the east. Most tops will become clear again in the evening.

Visibility: Scattered cloud in the west from 500m will thicken and become more broken by late morning affecting visibility for a lot of hills west of the A9. The low cloud will spread east but will remain more scattered from 600m during the afternoon. Perhaps the Speyside hills and those around the Lecht remaining mainly clear in the shelter. Visibility also poor in afternoon rainfall but improving as the rain moves south in the evening.

Temperature: **Glens:** Plus 11C rising to 15C, slightly higher in the east. Temperatures falling to 4C by late evening as skies clear.

At 800m: Around plus 8C falling to 4 C later in the evening.

Freezing level: Above the summits.
